Demountable Drop Core Bollard

A heavy duty **demountable bollard system** with diamond core drill and cast-in steel floor socket with removable steel core. Finished with polymer bollard cover kits for high visibility and no-paint maintenance benefits. Ideal for external level access loading doors, where HGV trailers reverse in and out of industrial buildings. Available in 5 different colours suited to warehouse regulations.

Features and Benefits

- Cast-in steel floor socket for superior strength.
- Demountable bollard cores simply lift out and drop back in.
- Avoids all the costly needs for excavating and casting-in potted bollards.
- 50mm reflective silver band for nighttime visibility.
- Made from Steel and manufactured in the UK from UV stabilised linear low-density polyethylene (LLDPE).
- Available heights - 1260 mm or 1560 mm.
- M16 x 150mm (3) throughbolts, hot dip galvanised to BS EN ISO 1461.

Material	Mild steel / Linear Low-Density Polyethylene (LLDPE)
Dimensions	Heavy duty – 1260 mm high, 168 mm diameter / 210 mm diameter overall Super duty – 1560 mm high, 219 mm diameter / 260 mm, diameter overall
Socket depth	200 mm
Colour options	Green/White (fire escape rooms) Red/White (high warning areas) Black/Yellow (caution areas) Yellow/Black (caution areas) Yellow (caution aeas)
Finish	Hot dip galvanised to BS EN ISO 1461/yellow and black
