

Brandsafe

Armco Safety Post Cap

Armco safety barrier posts often present sharp edges, therefore it is recommended to cap the posts with safety polymer caps. Not only will you dress all edges to eliminate potential pedestrian hands, limbs and clothing 'snag' resulting in potential injury, but also provides a contrast colour to highlight the barrier run.

Features and Benefits

- Cover Armco barrier rail sharp edges and reduce the risk of snags and injury.
- Contrasting colour to highlight barrier run.
- Simple push fit installation, no fixings required.
