CornerWRAP – Heavy Duty

Heavy duty polymer mouldings with polyurethane yellow buffers are ideal for protection of building and door opening corners. Suitable for steel, brick, block or pre-cast concrete walls. **CornerWRAP's** make vulnerable corners highly visible and cushion under impact. Incorporates 4 no. 50mm reflective bands for night time visibility.

Features and Benefits

- Incorporates absorbing pads, tough polyethylene housing and reflectors.
- Suitable for concrete columns, brick, block work and pre-cast concrete walls.
- Heavy duty polymer moulding with polyurethane yellow buffers.
- Supplied with the required wall fixings.
- Yellow buffers for high visibility.
- Ideal for basement car parks where vehicle doors and bumpers often clash with columns.
- 890 mm long and for heavy duty requirements.
- Includes 2 No. diamond grade reflective bands and 6 No. fixing holes.
