Armco 1100T Safety Barrier

A triple stacked Armco barrier layout. **1100T Armco Safety Barriers** provide the ultimate Armco barrier solution for potentially high-risk areas in warehouses and service yards. We would recommend deploying this particular safety barrier range in areas where HGV / forklift drivers are prone to operate at speed and / or a regular basis. These products are often used for the protection of sprinkler, fuel and gas tanks.

Features and Benefits

- Triple stacked Armco safety barriers.
- Ideal for zones of high HGV and forklift activity.
- Mitigates the risk in areas with high stillages and/ or pallet stacking.
- Provides effective protection for sprinkler, fuel and gas tanks.
- Handrail extensions available for pedestrian walkway creation.
- Bolt down, double holed base plates.
- Triple holed base plates for Armco 1100T safety barriers.
