

Brandsafe Checker Plate

A high-quality, versatile solution designed for environments where durability, grip, and appearance are equally important. Recognised for its distinctive raised 5 bar tread pattern, this plate delivers reliable slip resistance while enhancing the visual appeal of flooring, access platforms, vehicle modifications, and architectural finishes.

Features and Benefits

- Durable aluminium construction – engineered for strength and long-term performance.
- Low maintenance surface – easy to clean and resistant to corrosion and wear / tear.
- Versatile applications – ideal for flooring, access ramps, wall protection, and high-impact areas including storage and freezer doors.

Technical Details

- 5 bar aluminium treadplate.
- Available in sizes up to 3000mm x 1500mm.
- 2mm to 6mm thick.

Material	5 bar aluminium treadplate
Thickness	2mm to 6mm
Sheet dimensions	Sizes up to 3000mm x 1500mm
Cutting capability	Guillotining available for sheet/plate up to 6mm thick Bar/tube cutting available for diameters up to 220mm
Protective coatings	100-micron fibre laser coating 80-micron poly coating
Available grades	1050 H14, 5251 H22, 6082 T6
